

FOR IMMEDIATE RELEASE

Call for Papers for the 15th Biennial Worldwide Congress Unitecr 2017

By Unitecr 2017 Technical Committee
July 21th, 2016

Santiago, Chile – We are pleased to announce that the Call for Paper for the 15th Biennial Worldwide Congress UNITECR 2017 has begun. In the last version, UNITECR 2015, more than 200 papers and 500 posters were submitted. At the event were almost 100 conferences and more than 120 posters exposed to the 900 persons that assisted to the event. Next year and for the very first time, the event will be hosted by ALAFAR at Santiago de Chile.

The authors that are interested in submit an abstract can go to www.unitecr2017.org and select the Abstracts section to submitted his work **until November 1st, 2016**. Every abstract will be qualified by the Technical Program Committee base on the technical quality of it. Applicants will receive e-mail notification of acceptance by December 31, 2016

Authors of accepted abstracts will be required to submit a paper for publication in the collected proceedings. Deadline for paper proceedings will be April 1, 2017.

The abstracts and papers should be on one of the followings topics:

- Basic Science
- Cement and Lime
- Education
- Energy Saving and Insulation
- Environmental and Recycling
- Glass
- Manufacturing, Installation and Equipment
- Monolithics for Various Applications
- Nonferrous Metallurgy
- Petrochemical
- Raw Materials
- Steelmaking: Continuous Casting
- Steelmaking: Blast Furnaces and Coke Ovens
- Steelmaking: Steel Ladles and Secondary Metallurgy
- Steelmaking: BOF
- Testing of Refractories
- Other Industries

We are working very hard to make a wonderful and interesting event for all the participant. We look forward to have a massive assistance for the congress and welcome to it next year.

About UNITECR

UNITECR is a biennial international conference that is organized in rotation by one of its four "Founding Member Organizations". The official governing body is the UNITECR International Executive Board (IEB), composed of representatives of the Founding Member Organizations, the Principal Member Organizations, and certain individuals elected to the IEB as Distinguished Life Members. The IEB is an international non-profit organization existing to contribute to the progress and exchange of industrial knowledge and technologies concerning refractories according to its official By-Laws. The objective of the UNITECR IEB is to organize the biennial UNITECR and any other meetings with a view to maintain and develop its activities and generally to contribute to the progress and exchange of industrial knowledge and technologies concerning refractories.
